

Application No.: 09/909,103

REMARKS

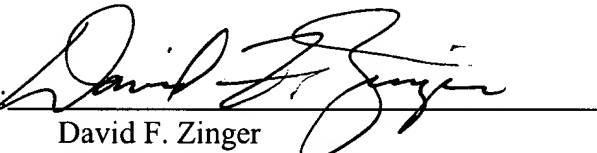

By this Preliminary Amendment, Applicant is correcting a typographical error regarding identification of a predecessor patent application. The predecessor application should have been identified as having Application No. 09/626,345 and not 09/262,345.

In light of this error, entry of this Preliminary Amendment is respectfully requested. Additionally, enclosed is a copy of a revised transmittal sheet that has been amended to incorporate the correct Application No. for which this application is a continuation-in-part application.

Attached hereto is a marked up version of the changes made to the specification by this Preliminary Amendment. The attached page is captioned "Version With Markings to Show Changes Made."

Respectfully submitted,

SHERIDAN ROSS P.C.
